Listings

# Our Priorities. The things we care about.

Mapping  
Local Assets

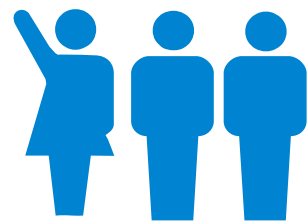

Citizen Engagement

Leveraging  
Local  
Innovation

Open Source  
Innovation

Strengthening  
Participatory  
Institutions

Educational  
Partnerships

Our goal for year one is to introduce the concept of civic technology to the state of Maine, to build a regional platform for mapping and managing local assets more effectively, and to demonstrate the impact of civic technology in action.

# Campaigns

## Pilot Cities

Code for Maine is working with the cities of Bath and Biddeford as to pilot civic applications

## Open Civic Hardware

## Open Transit Data

## Civic Hacker Networking

## Municipal Technology
